

AC Valve Alliance

AC Valve Alliance Group

Our mission is to provide end-to-end valve and automation solutions across Oil, Gas, Petrochemical, Energy and general process industries.

We operate as a global stockist and distributor and hold one of the largest ball valve stocks in Europe. Offering a variety of solutions such as metal seated, cryogenic and exotic materials from our trusted supply partners ensures we

have stock availability options to meet our customers' ever-changing demands and without the lead-time.

Agreements with key suppliers form the backbone of our alliance; together we have built a reputation for flexibility, innovation, quality products, specialised testing and excellent customer service.

Pekos

Principal Supply Partner

Pekos produce floating and trunnion mounted ball valves to a wide variety of specifications and sizes. Manufacturing in Spain since 1988, the valves come with approvals including PED 97/23/ CE, TUV AD-2000 Merkblatt W0, SIL 3 Capable (ICE 61580) ATEX (94/9/CE) and TA-LUFT.

Perar

Principal Supply Partner

Manufacturing API6D and API6A ball valves in Italy since 1962, Perar supply floating type, trunnion mounted side entry, trunnion mounted top entry, metal seated, sub-sea and cryogenic, bolted and fully welded body valves. They are fully approved to be used on the UK's gas network as a National Grid qualified vendor to T/PM/QA/7 and GIS V6, and also hold many global approvals.

Galli & Cassina

Principal Supply Partner

Galli & Cassina have been manufacturing carbon steel lubricated plug valves in Italy since 1919. They are fully approved to be used on the UK's gas network as a National Grid qualified vendor to T/PM/QA/7 and GIS V6, and also hold many global approvals.

Technical Valve Services

Principal Supply Partner

Technical Valve Services is an industry leader in specialist engineering and valve modification. With over 20 years of experience, their in-house team of experts based in the UK are dedicated to manufacturing and delivering fast-tracked ball valves and engineering solutions tailored to meet the demands of even the most severe service applications.

Morris Ejector Technologies Ltd

Supply Partner

With over 10 years' experience in specialist venturi product designing and manufacturing in the UK, Morris Ejector Technologies Ltd provide high quality, custom designed, application specific venturi products and solutions.

Plastrulon

Supply Partner

Incorporated in 1983, Plastrulon is a design and manufacturing company specialising in the production of PFA lined ball valves for the chemical process industry.

Starline

Principal Supply Partner

Manufacturing in Italy since 1976, Starline have developed a wide and complete range of ball valves in different materials and executions, including: Trunnion Mounted design, Single and Double Block and Bleed, Metal to Metal, Cryogenic and High Temperature design with Worldwide approvals. Operating as Starline Ball Valves UK, ACVA can now offer Starline ball valves manufactured exclusively in the UK under licence providing unique fast and flexible client delivery options.

Nacional Safety Valves

Principal Supply Partner

VALVULAS NACIONAL have been designing and manufacturing safety relief valves in Spain since 1976. Their safety valves are produced in accordance with the most recognised international standards and regulations: API, ASME, AD 2000-Merkblatt, ISO-4126 together with the European directives PED:2014/68/UE & ATEX:2014/34/UE.

Jungmann Armaturen

Supply Partner

Manufactured in Germany, Jungmann Armaturen provides performance-lead hygienic safety valves with stainless steel construction. These valves are FDA and CE certified, making them ideal for the food and drink industry, as well as the pharmaceutical, steam, and chemical industries.

Zwick

Supply Partner

Manufacturing in Germany, Zwick Armaturen has over 40 years' experience manufacturing very high integrity triple offset butterfly valves with 100% zero leakage capabilities.

Sammi Line Blinds

Supply Partner

Sammi Line Blinds is a world-leading company in the engineering and manufacturing of line blind products. With over 25 years' experience across various industries, they offer a unique and advanced design concept which provides safe and time-efficient benefits.

AMMtech

Supply Partner

AMMtech is based in Lucca, Italy and are a well-established European manufacturer of dampers for all industries. AC Valve Alliance is the UK distributor for AMMtech dampers.

Additional Stock and Services

As well as offering products from our European supply partners, we work closely with carefully selected manufacturing companies from India, China, Taiwan and Korea.

AC Valve Alliance carry out factory visits in-person, or employ locally qualified and verified inspectors, expeditors, and engineers to carry out supplier evaluations. Our local representatives also provide project management, inspections, documentation review and shipping coordination on our behalf to ensure full product traceability, allowing us to add a large scope of products to our valued "AC Valve Alliance Approved" global supply list.

Our ever-expanding stock profile provides off-the-shelf solutions to meet customer requirements. In addition, our group provides a variety of in-house services; from valve modification, automation and pipe skids to testing and project supply, as well as dedicated in-house valve manufacturing options to fulfil your bespoke requirements.

Our enhanced workshop facilities ensure we're best positioned to offer a rapid, personalised response and are ready to solve a wide range of engineering challenges.

Actuation

Air Torque

Principal Supply Partner

Founded in 1990 in Italy, Air Torque SpA is one of the worldwide leading manufacturers of rack and pinion pneumatic actuators in aluminium, carbon steel and stainless steel. VA1 and SIL approved quarter turn pneumatic rack and pinion actuators and HD scotch yoke actuators are available in both pneumatic and hydraulic configurations.

Bernard Controls

Supply Partner

Bernard Controls has been designing and manufacturing electric actuators and associated control systems for over 80 years. Today, the company ranks in the international top three for industrial valve and damper automation and is world leader in the nuclear sector.

AUMA

Supply Partner

Manufacturing in Germany, AUMA have been developing and building electric actuators for 50 years and their remote controlled multi-turn range are the most versatile products on the market. AC Valve Alliance is fully ACE trained by AUMA.

Rotech

Supply Partner

Rotech are a market leader in limit switch boxes and offer solutions to complex application problems having built up a range of over 2000 different model options.

VAC

Supply Partner

Based in Sweden, Valve Accessories and Controls manufacture quality pneumatic and electro-pneumatic positioners for modulating control of pneumatic actuators which have a rugged and proven design. With full factory support, AC Valve Alliance is the official UK sales agent.

Dresser

Supply Partner

Dresser have been producing reliable products of exceptional quality since 1968 and offer a comprehensive line of quarter-turn, multi-turn, and the industry leading SurePowr series of spring-return electric actuators.

Additional Actuation Brands

Partnering with industry-leading manufacturers, our automation centre has established extensive stock of the most common components required for fast-track delivery. These include: Norgren, Bifold, RGS Pneumatrol and Maxseal as well as the top mounted switchboxes from Rotech, Imtex and Topworx. Working directly with our supply partners such as AUMA, Bernard and Asahi ensures that the AC Valve Alliance have bespoke positional and fail-safe back-up solutions, plus a wide selection of accessories for a number of specialist applications.
