

# AC Valve Alliance Group

Connecting you to valve  
and automation solutions

## 25+ years

Over 25 years serving global projects and customers across a wide range of industries

## 7 Companies

A unique alliance of valve and actuation experts working side-by-side

## 1 Solution

End-to-end project delivery, your choice of in-house manufacturing options and stock on-demand

# About us

At the **AC Valve Alliance Group**, our mission is to provide **end-to-end valve and automation solutions** for our customers, across a broad range of **industries and applications**.

As a **proven partnership of seven companies working under one roof**, we operate as a **global stockist and distributor** while also offering **bespoke manufacturing options**.

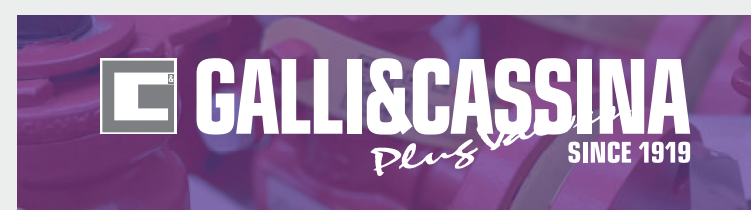

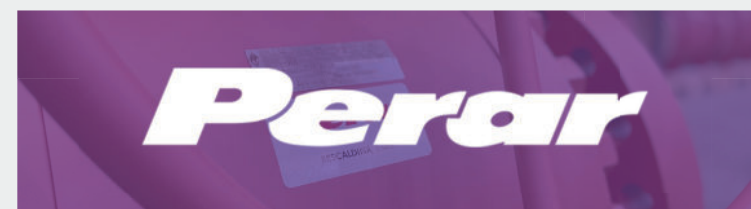

Operating out of our custom facility in the heart of the UK, we pride ourselves on both our technical knowledge and world-class customer service – we’ve built a reputation for flexibility, innovative solutions, fast-tracked stock and world-class support from our team of expert consultants.

Together, we offer a host of products and services; from valve modification, automation and pipe skids to testing, project supply and even designing and manufacturing our own valves to fit our customers’ needs. Our enhanced workshop facilities ensure we’re positioned to offer a rapid, personalised response and ready to solve a wide range of engineering issues.

With millions of pounds worth of stock for expedited delivery, we’re ready to help if you’re experiencing long lead-times or plant shutdowns. All of our products are supplied with full traceability, and we can rely on the quality and support of our manufacturing partners.

“We have been business partners and friends with AC Valve Alliance for over 25 years. During that time, professionalism, efficiency, great service and credibility have become synonymous with the group. They are always a pleasure to work with and we look forward to many more years collaborating on this special partnership.”

**Daniel Arranz – CEO Pekos Group**

# Our Supply Partners

Our **unique alliance** is formed around **close relationships**, established over time with our **principal supply partners**.

Building these bonds means we can rely on their **full-commercial support**.

These relationships ensure we offer only the **best and most current products**, placing us at the **forefront of ever-changing demands for new materials, special testing, product qualification and approvals**.

# Our Services

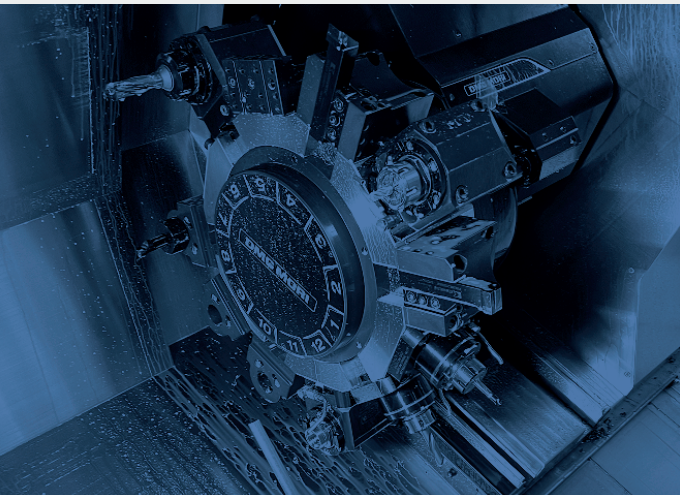

## Valve Stock

Our stock range is one of the largest and most comprehensive in Europe and we're proud to offer our products to customers worldwide. Stock is available for fast-track delivery and comes tested and packaged with full traceability to meet your needs. Options also include factory lead times and direct supply to match your requirements.

## Automation Centre

We provide automation solutions tailored to your requirements as well as fast-track 'off the shelf packages' utilising our extensive stock range of pneumatic, hydraulic and electric actuators, mounting kits, solenoids and switch-boxes, which complement our in-house range of valves.

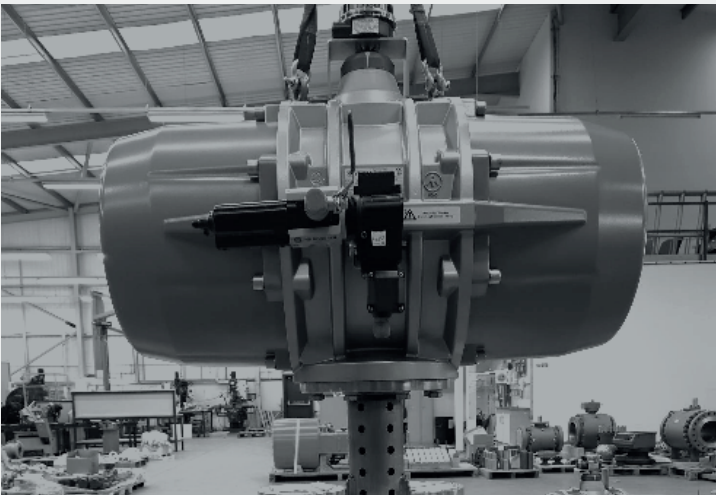

## Valve Manufacturing

Our in-house team of experts will provide valves designed and manufactured to your specification using Western-European materials, putting them through rigorous testing and machining using the latest CNC technology at our facilities to achieve a fast-track delivery. Our UK manufacturing brands include TVS, which provides bespoke severe service ball valves, and Starline UK which manufactures ball valves under licence in the UK, both fully certified to the PED and PESR regulations.

## Pipe & Skid Solutions

We offer a complete skid mounted mechanical and electrical system ready to be installed on site. Built by our experienced engineers to a client's own design or designed in-house using leading 3D modelling software; we can produce our compact and economic skid solutions working from P&IDs following the latest codes and regulations. This is all completed with a dedicated UK team and guaranteed high-quality approach.

## Project Supply Solutions

The industry experience of our dedicated Projects Team lets us understand your requirements, working with your AVL to complete projects on time, to cost and to customer specification. We utilise our depth of stock and also offer comprehensive valve and actuator sourcing to meet your needs, including manual and actuated, ball, DBB, gate, globe, check, control, butterfly and safety valve products.

## Testing & Valve Engineering

We offer a full on-site test facility as well as valve engineering, where our in-house experts can upgrade materials and components for a wide range of requirements. Our extensive workshops enable us to provide full after-market support for product repair, refurbishment and re-testing.

## Quality & Traceability

Each of the seven companies within our group are individually audited and accredited by Lloyds to ISO 9001:2015 and we provide PED & PESR certification on all our UK manufactured products. We operate strict quality systems and procedures to ensure high standards and robust internal processes are adhered to.

# Global Projects

Our headquarters are at the heart of the UK, which gives us the freedom and ideal global positioning to reach partners and customers worldwide.

Our products are recognised and used on critical facilities around the world and our brands are approved by leading global energy and chemical producers. We offer an extensive product approval list which includes Shell, Total, Aramco and National Grid UK.

# Our Companies

The AC Valve Alliance Group consists of **seven separate privately owned companies**, partnering with trusted global manufacturers and each one an **expert** in their own field.

The companies connect under one roof, offering a **diverse range of valve and automation solutions** to meet our **customers' needs**, quickly and with **strict quality control**.

**AC Valve Alliance Group**  
Connecting you to valve & automation solutions

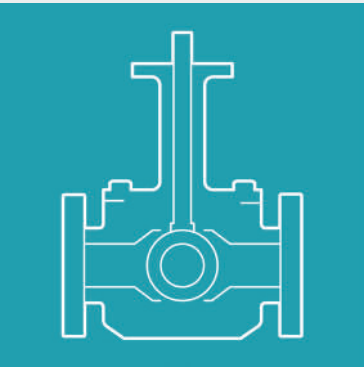

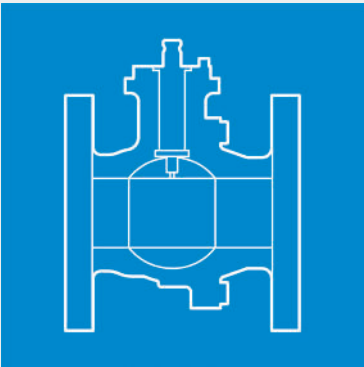

**Air Torque UK**  
Connecting you to automation

As an affiliate of Air Torque Italy, Air Torque UK Ltd provides the group with specialist pneumatic, hydraulic and electric automation products and expertise.

**AC Valves & Controls**  
Connecting you to quality valve solutions

AC Valves & Controls Ltd has a unique supply partnership with Pecos, a leading ball valve manufacturer from Spain.

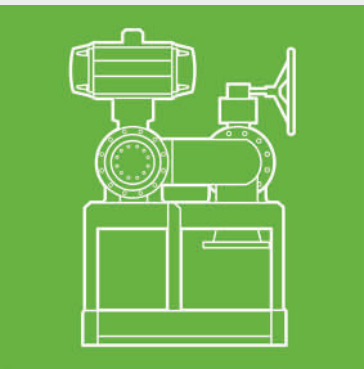

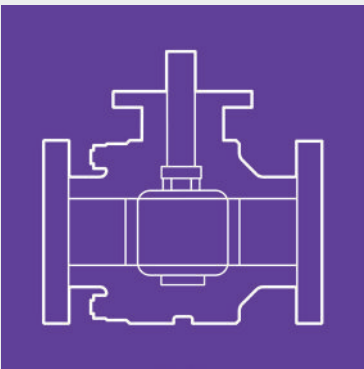

**Technical Valve Services**  
Connecting you to engineering solutions

Alongside in-house testing and modification, Technical Valve Services Ltd designs and manufactures a British-made range of severe service valves.

**The Valve Alliance**  
Connecting you to quality valve solutions

The Valve Alliance Ltd partners with Perar-Italy to establish a major European stock holding for API 6D Trunnion mounted Ball Valves and Galli and Cassina for GIS V6 approved plug valves.

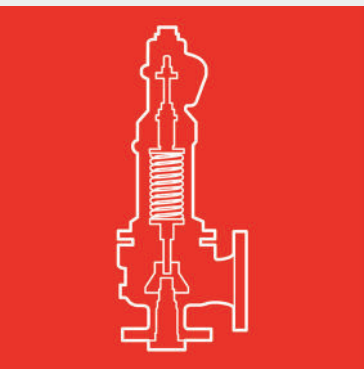

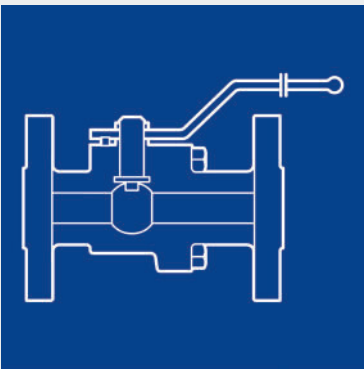

**Valve & Pipework Systems**  
Connecting you to skid & valve package solutions

Valve & Pipework Systems Ltd provides the group with invaluable, dedicated design and pipe skid manufacturing capability.

**Starline Ball Valves UK**  
Connecting you to quality valve solutions

Starline Ball Valves UK provides stock and fast-track manufacturing options under licence on behalf of affiliate Starline S.p.A, a well-established forged steel ball valve manufacturer from Italy.

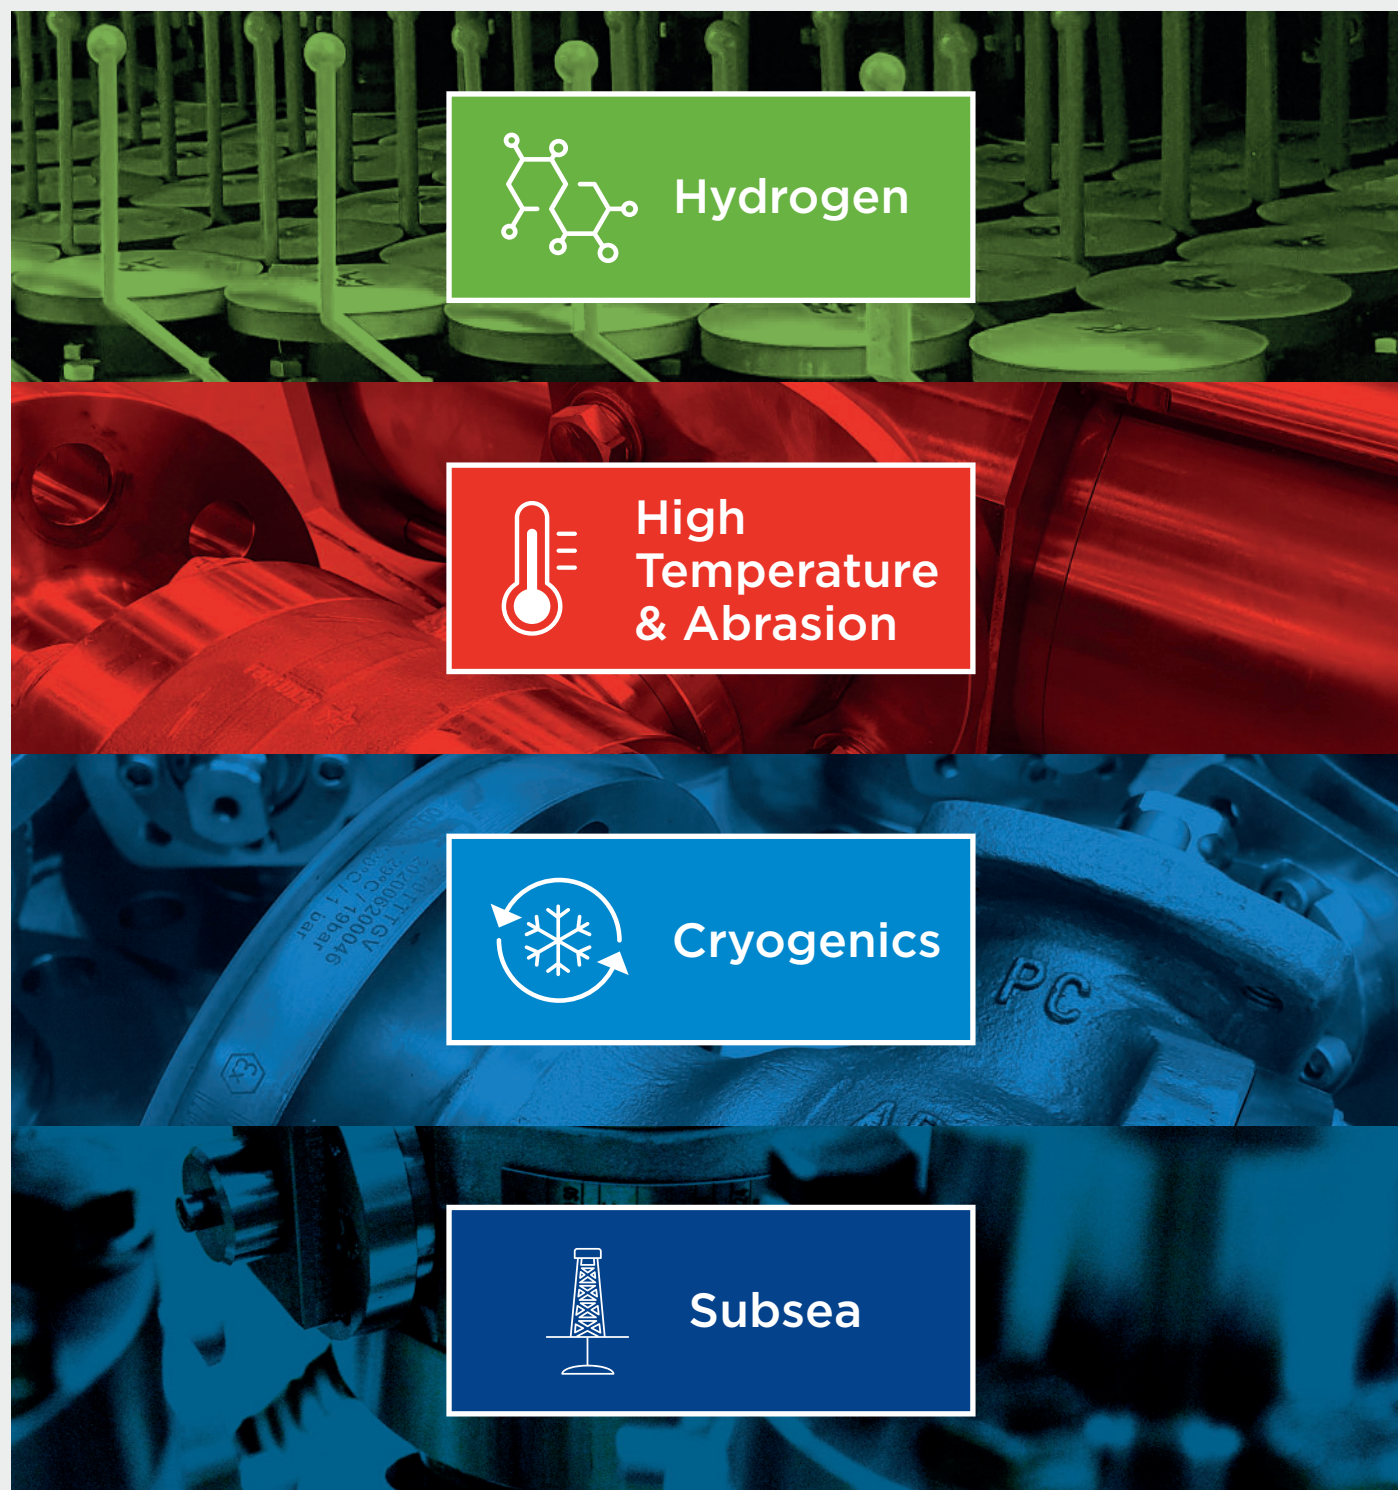

**Nacional Safety Valves UK**  
Connecting you to safety valves

Nacional Safety Valves UK Ltd provides fast-track delivery options, with quality safety valve products manufactured in Spain.

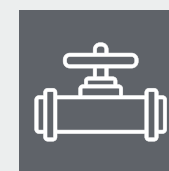

# Specialist Applications

“AC Valve Alliance are a long-standing supplier who understands our business and are easy to work with. They offer quality products with the technical knowledge to support these products.”

– Valued AC Valve Alliance Customer

# Why Choose Us

Our stock of valves and actuators is one of the largest in Europe and is available for fast-track delivery

We have been in the industry for over 25 years and are a globally trusted partner for many large-scale projects

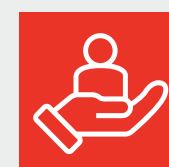

We maintain close partnerships with high-quality European valve and actuator manufacturers

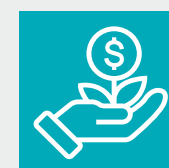

Our employees have a wealth of first-class engineering experience and knowledge

Our in-house technical facilities can test and modify valves to suit bespoke project requirements

It's our mission to ensure that all dealings with us are handled quickly, correctly and in the best engineered and cost-effective way

We've made a commitment to continual investment in our staff, facilities and service offerings

We offer a wide range of in-house manufacturing solutions, including severe service ball valves and bespoke pipe skid build/design
